EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Applicant's election of Group I (claims 1-10) is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

In the Drawings

The drawings must show every feature of the invention specified in the claims in accordance with 37 CFR 1.83(a). Therefore, the cooling device, condensing device, closing device, control device, pressure valve and pressure sensor must be shown in the drawings. No new matter should be entered. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

A cooking chamber system for a cooking device including a cooking chamber with at least one opening discharging into at least one pipe to at least one of a discharge and an exhaust, and at least one blower generating at least one of excess pressure and low pressure in the cooking chamber is arranged in at least one of the opening and the at least one pipe is not taught nor fairly suggested by the prior art.
